PROJECTS

Personal Portfolio

Feb 2025

- Developed a responsive and modern personal portfolio website to showcase my projects, skills, resume, and contact details.
- Built using React.js, with a focus on clean UI, component reusability, and smooth user experience.

AI Resume Builder

Dec 2025

- Developed a full-stack AI-powered Resume Builder using MERN stack, featuring dynamic resume templates, and real-time preview with persistent data storage.
- Integrated AI-driven content enhancement for professional summaries and experience descriptions using OpenAI APIs to improve resume quality and ATS compatibility.
- Added OTP-based email verification system using SendGrid, including expiry handling and resend logic to enhance account security and user trust.

Food Delivery Website

Oct 2024

- Designed a full-fledged food delivery platform with features like food ordering, payment integration, and user authentication.
- Integrated an Admin Panel to manage users, orders, menu items, and restaurant listings with role-based access control.

Wanderlust – Travel Listing Web App

Apr 2024

- Created a full-featured travel listing platform where users can browse accommodations, view details, and read/write reviews.
- Implemented secure user authentication with login/signup and access control for actions like posting reviews or managing listings.

ACHIEVEMENTS

- **50-Day streak on LeetCode, 100+ problems solved:**
- **Completed Apna College Delta Batch (Full Stack Web Development):**

INTERESTS

- Cricket
- Travelling
